DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 08/06/2008 have been fully considered but they are not persuasive. Applicants have argued that the compounds of Cimarelli et al have superior properties over the instant claimed compounds. The examiner does not find this argument because there is no side-by-side comparison showing the instant claimed compound versus the closest species in Cimarelli. In addition, the showing must be commensurate with the claimed invention. Because the structural similarity of the compounds with the instant invention the claimed compounds are deemed to be obvious. The rejection is being maintained.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cimarelli et al. For reasons see above arguments stated herein and reasons stated in previous obvious office

Conclusion

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
